NO.６ 皮膚の効果

Have you ever thought about what skin does for us? Most of us are aware that skin protects us from liquid, heat, cold, dirt, and, bacteria. But that is not its only job. For instance, the skin is where our bodies make the vitamin D that we need. Another function has to do with the sense of touch. Without that sense, we could not feel any difference between rough and smooth surfaces. Skin can even help us determine if someone is sick. The wrong color - slightly gray or very pale - may be a sign of disease. Skin may reflect a person's mental state, too. Unusual sweating, for example, may be a sign that a person is nervous or under stress.

1	aware	形用詞	気づいて
2	conscious	形用詞	気づいて・意識的な
3	liquid	名詞・形用詞	液体(の)
